Horizontal words: (0)waterfall, 6) glacier, 7) volcano, 12) sea, 2) geyser.

Vertical words: 1) current, 8) delta, 9) island, 10) cape, 5) peak, 11) lake, 4) peninsula, 3) crop.

Listening

(SCRIPT)

You will hear the conversation about winter in Australia. Decide if each sentence is correct or incorrect. If it is correct, choose the letter *A* for *YES*. If it is not correct, choose the letter *B* for *NO*. You will hear the conversation twice. You have 45 seconds to look through the task.

Anna, Brendon

A: You know, I'm going to Australia this summer. It's my first time.

B: Hey, that's great news, Anna. Of course, it's winter there then.

A: Yeah, I know that ... er... actually, how long does winter last in Australia?

B: Well, generally speaking, from May or June to August. But it depends where you are.

A: What about in the south of the country? What winter like there?

B: Well, in Victoria and Tasmania, the days are short and often chilly. And the nights are cold.

A: Does it snow?

B: Well, in most cities there's never any snow. It snows about once every ten years in Melbourne and Hobart, but it snows a lot in the mountains.

A: Where are they?

B: There're on the border between Victoria and New South Wales. We call them the Snowy Mountains – and it's not for nothing! Skiing is possible between June and October. Late August is very popular time for skiing, but it also very crowded. Actually.... er some people go to New Zealand instead – there's excellent snow and it's cheaper.

A: Is it true that some parts of Australia don't have any winter?

B: Yes, that right. About 40 percent of Australia is tropical. You find that kind of climate in the north of the country, in Queensland and the Northern Territory. In June, July and August, the days are warm – great for swimming! And the nights aren't very cold. So, on the same day, in some parts of Australia people go swimming and in other parts they go skiing.
