Dear Sasha,

Thanks for your letter.

People always invent something new and unusual. Such things aimed to simplify people's life. They become an important part of our life. For example, it is difficult to imagine the modern life without computers, television, mobile phones.

I have bought my favourite gadget. It is my smart phone.

First of all, looks like a small card, because it is very slim. My telephone is nice, big in size and has got many opportunities.

With my phone I can read book, watch my favourite film about different things, play different games. Secondly it has some bad point. They are can't work for a long time.

I would like to recommend it to other people, because it's mine and I consider that it is the best phone.

All the best,
Albina
